

BUILD ON THE BASICS TO EXPAND YOUR STORAGE CENTER KNOWLEDGE

Attend this live, instructor-led course to learn about advanced administrative topics for a Compellent SAN. This 3-day, hands-on training session is designed to build on the basics and increase your knowledge on both the Compellent Core and Licensed Modules in your Storage Center. Take this course to more effectively use the tools available to you for managing your Compellent Storage Center. Administration & Management or Overview & Installation are prerequisite courses.

Advanced training and instruction designed to take your Storage Center knowledge to the next level.

“I’ve gone through a lot of training and the Compellent training was by far the most valuable. It was a lot of fun. I learned a lot and it was a really valuable training experience.”

JAMES BLACKWOOD
Senior Systems Engineer
